Science lab (Science club)  
Debating club  
Environment club  
Quiz club

The co-curricular activities are encouraged amongst our students. The purpose and aim of such clubs are to instill a sense of responsibility apart from providing holistic development. Taking part in various clubs promotes independent thinking and leadership quality to the students.

- **Quiz club:**  
The activities of Quiz club will help to improve General Knowledge and current affairs of the students.
- **Math club:**  
The math club organizes competitions and activities in such a way that students get confidence about Mathematics. Students will be encouraged to think laterally and come out with unique ideas.
- **Science club:**  
Science club is a better forum to promote inquisitiveness among the student and inculcate scientific temper in them. In order to trigger interest among the students in science, Safa School has a vibrant science club where every month students will be encouraged to come out with innovative and creative ideas.
- **Debate club:**  
Communication is the key to success. One, who is a better communicator, will become a better leader. The debate club of Safa School will periodically organize Oratorical, Elocution and Debates to the students across all classes. The club uses the formal debate format and trains the students to compete in interschool competition.
- **Environmental club:**  
It is the responsibility of every student to do their part in saving the environment. At Safa students get awareness on environmental issues, such as protection, conservation, preservation and restoration of Mother Nature. Students who are interested in environmental advocacy and awareness are encouraged to join.
